

# UniversalDoctor

## UniversalNurses

## UniversalWomen

**UniversalDoctor** has been working to facilitate communication between health professionals and patients from different backgrounds.

We employ multimedia technology to develop different applications with the goal of helping to improve multilingual **communication and integration**.

### **Multiple Implementations and New Applications with Millennia2025Foundation**

**UniversalDoctor's** applications have been implemented in more than 50 hospitals around the world.

Now **UniversalDoctor** and **Millenia2025Foundation** are working together to develop **UniversalNurses** and **UniversalWomen**.

### **The Millennia2025Foundation**

Developing Innovative tools and services to empower women within the global context of the Digital Solidarity.

**UniversalNurses** and **UniversalWomen** will provide comprehensive multilingual solutions between Nurses and Patients and between Health professionals and women.

### **NOW IN MULTIPLE PLATFORMS:**

If you travel to a country where you are concerned a doctor may not understand you or if you're a health worker visiting patients in multiple languages, DON'T FORGET that **UniversalDoctor Speaker® for iPhone & iPad** can also facilitate communication at the time you need it most.
