Millennia2025 digintelles
**Collective intelligence and
digital skills as
drivers for empowerment**

v Why it is important:

Facing the Covid-19 crisis and the de-confinement, we must all reconfigure our vision of human intelligence by using (or learning to use) digital tools in order to survive or to adapt our way of living to new contexts, building a better future in solidarity.

v How to participate?

The Millennia2025 Women and Innovation Foundation suggests you to take a few minutes to answer **7+1 questions** of our foresight exercise:

your contribution will feed the "Millennia2025 digintelles report" brought to political leaders within the framework of the SDGs Health, Education, Equality, Justice, Economic leadership!

v Thank You for promoting digintelles to your networks, students or associations :
