

The Women Economic Forum awards Marie-Anne Delahaut with the "Women of the Decade in Community Leadership" prize for Millennia2025

The President of the Women Economic Forum, Dr. Harbeen Arora, invited Marie-Anne Delahaut, President of the Millennia2025 Women & Innovation Foundation and Director of research at the Destree Institute, to present the concrete actions of Millennia2025 in The Hague on the 8th and 9th March 2018 during the international conference organized by the Women Economic Forum.

More than 200 women entrepreneurs coming from 30 countries shared ideas, experiences and methods of action about economy, eCommerce, sustainable development, circular economy, education, media, technological progress, public policy, scientific research, cyber-security or innovation.

Marie-Anne Delahaut was invited to contribute to two workshops and a plenary session: "Challenges in Education & Women's Economic Empowerment", "The Magic Of Wonders - Innovation, Entrepreneurship & Start-ups" and "Gender Equality & Women's Empowerment". She asked for innovative partnerships concerning, on the one hand, the concrete actions of the Millennia2025 WeObservatory for women and eHealth such as "Zero Mothers Die" and, on the other hand, the new MAD-Skills project, "Master, Apply and Dynamize your skills" to learn, teach and work by ensuring the transmission of knowledge among contributors from all sectors or generations through the Millennia2025 Intelligence Platform.
